DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 25-37 are rejected under 35 U.S.C. 102(e) as being anticipated by Ando et al (P.N. 7,050,702).

Ando et al discloses a video/audio recording/reproducing apparatus that shows all the limitations recited in claims 25, and 31, including the feature of recording data stream on a recording medium (See Ando et al's Figures 3A-3H), the feature of recording in a common information file a playlist of the stream objects (See Ando et al's Figure 3F, component 1103), the feature of recording time map information comprising a mapping list having time search information for searching the stream objects as specified in the present claims 25, and 31. (See Ando et al's Figure 3F, component 1104).

With regard to claims 26, 32-33, the feature mapping list comprising sub mapping lists having time search information for searching corresponding one the stream objects as specified thereof is present in Ando et al. (See Ando et al's Figure 3G, component 1112, and Figure 3H).

With regard to claims 27-28, and 34-35, the feature of recording table of content having random access entry point information that allows random access to the recorded data stream as specified thereof is present in Ando et al. (See Ando et al's Figure 3E, component 1101, and Figure 3H, component 1117).

With regard to claims 29-30, and 36-37, the feature of recording presentation sequence information in the common information file as specified thereof is present in Ando et al. (See Ando et al's Figure 3F, component 1103).

3. Claims 1-23 contain allowable subject matter over the prior art of record.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action.
